The way you treat me baby,  
You cheat and tell me lies,  
I guess I shouldn't care at all,  
But still I sympathize,  
Cause you got heart trouble coming on, yeah yeah  
You got heart trouble coming on,  
Well, you think that you don't need me baby,  
But you're gonna want me when I'm gone, uuuh.  
You say that love can't touch you,  
You feel no pain at all,  
You think that you're above it baby,  
But I believe you'll fall,  
Cause you got heart trouble coming on,  
You got it coming on,  
Yeah, you got heart trouble coming on, yeah

Well, you'll get down on your knees baby,  
Begging me to come on home,  
To come on home, baby yeah.  
You tell me about someone else,  
But no one's gonna care,  
Cause you left a trail of lonely tears,  
Behind you everywhere,  
And you got heart trouble coming on, coming on,  
Yeah, you got heart trouble coming on,  
Well, you'll know just how it feels baby,  
When you're left here all alone.  
Heart trouble coming on  
Heart trouble coming on  
Heart trouble coming on  
Heart trouble coming on
