I'll give you the best I can give you baby,  
That's all I can give,  
We'll live the best we can live it baby,  
As long as we live.  
What kind of love never turns you down?  
What kind of love lifts you off the ground?  
Turns your life around.  
What kind of love makes you go out  
In the wind and the driving rain?  
What kind of love runs through your heart  
With a pleasure so close to pain?  
What kind of love only this love that I have.  
I'll show you the best I can show you baby,  
That's all I can show you,  
I'll know you the best I can know you baby,  
As long as I know you.  
What kind of love never turns away?  
What kind of love never makes you pay?

Hears you when you pray.  
What kind of love makes you go out  
In the wind and the driving rain?  
What kind of love runs through your heart  
With a pleasure so close to pain?  
What kind of love only this love that I have.  
Yeah Yeah  
This love I know is all I have, baby (baby)  
This love I have is all I know,  
So I won't let go.  
What kind of love makes you go out  
In the wind and the driving rain?  
What kind of love runs through your heart  
With a pleasure so close to pain?  
What kind of love only this love that I have.  
What kind of love only this love that I have.
