There are those that think
That i don't really love her
There are those that think
That i'm just using her food and shelter
There are those that think
When i'm rich i'll forget her
Yeah right like i'd let her get far

Y'know ya hang on to a classic car

But there are those that think
That i should be the lone wolf
There are those that think
That i am just incapable of love
And there are those that think
That she is just a passing phase
Behind my back they say
She'll be gone one of these days
Yeah right then how come they
So jealous, anyway, hey?....solo

But still there are those that think
That i don't really love her
Yeah, there are those that think
That i'm just using her food and shelter
There are those that think
When i'm rich i'll forget her
Yeah right like i'd let her get far

Y'know ya hang on to a classic car

Yeah like i'd let her get far
Y'know ya hang on to a classic car
Guitar

....solo to fade
