I tried to see from your perspective
but yer already way too self deceptive
its amazing to see your selective memory
you can lie to yourself
but ya cant lie to me

yer guilty.....guilty.....guilty.....guilty

you hold yer head, high but yer a disgrace
yer living a lie, beneath that pretty face
its just a matter of time, before your fall from grace
cuz the writing on the wall
is now written on yer face

yer guilty.....guilty.....guilty.....guilty....HEY

tried to see from your perspective
but yer already way too self deceptive
its amazing to see your selective memory
you can lie to yourself
but ya cant lie to me

you're guilty.....guilty.....guilty.....guilty

guilty....guilty....guilty....guilty....guilty....guilty....guilty....guilty....HEY
