its all over  
its all over  
its all over yer face  
yer gonna want some space  
its all over town  
the way you put me down  
and its all over the papers  
in case you haven't read  
its no secret you secretly  
want me dead

ts all over  
its all over  
its all over...yeah  
its all over

its all over  
its all over  
its all over  
its all over yer face

yer gonna want some space  
its all over town  
the way you put me down  
and its all over the TV sets  
they're making' jokes, they're placing bets  
all over yer the tabloids.. we don't have sex  
and its all over people magazine  
the way we cant relate  
its no secret you secretly  
just cant wait
