They all said life's just a bowl of cherries.. but  
sometimes it seems like anything but  
Think again, sometimes reputations outlive their  
applications  
And sometimes fires don't go out, when you're done  
playing with them  
I feel so funny deep inside  
i wanna kiss myself goodbye

sugar high  
(gotta have it really need it to get by)  
sugar high

I could go out and not even leave the house  
A T.V. set and a bottle of wine's just fine  
Crashin' out on that old pull out couch  
Watching Saturday Night Live, I guess that's why  
when i think about my life  
i wanna kiss myself good bye

sugar high  
sugar high  
all right

I have searched both far and wide  
And I've explored the deepest caverns of my mind  
To try and find an explanation why  
I get this funny feeling deep inside  
When i htink about my life  
i wanna kiss myself good-bye

sugar high  
(gotta have it really need it to get by)  
sugar high  
sugar high  
(even though i've got to live until i die)  
sugar high  
(can ya feel it, can ya feel it sugar high!)  
Perfect.
