Verse 1:

I can't forget the day you looked my way.  
I've never once been sorry for the choice that i made.  
When I saw your love, I said, I will follow you.  
My friends called me a fool for falling for you,  
But they don't understand how I can love you like I do.  
I gave a promise, I will follow you.

Chorus

I'll go with you through the dessert, though it be hot  
and dry.  
I'll be there in the valley and we'll climb the mountains  
high.  
Wherever thou may lead us, wherever you may go I'll  
be there too.  
There is nothing left behind me that would turn around.  
Only memories of broken dreams scattered on the  
ground.  
I'm with you for the journey, I will be there I will follow  
you

Verse 2:

The joy that you bring, can't be explained,  
My world turns around you since that day you came.  
When I saw your love, I said I will folow you.  
Your mercey came down the moment I prayed,  
My sins were forgiven, Old things passed away.  
I gave you my promise, I will follow you.
