Seeking desperately for answers  
It seemed I'd lost my way  
I was drifting in my sorrow  
Grieved by so much pain  
But then I met a stranger  
He said I've been right were you are  
lean not to your understanding  
Cause He will heal your heart

Chorus:

Give it all to him  
The peace that you will find  
When you trust in Him  
You will not be denied  
Even in your darkest hour  
He will shine a light of healing power  
To guide you to the path that you need to know  
Just give it all to Him

Don't you wait another moment  
Don't you wait another day  
Give your burdens to the Master  
Troubles they don't last always  
Joy comes in the morning  
If you'll only just believe  
Cause at the feet of Jesus  
You'll find your sweet relief

Chorus:

Give it all to him  
The peace that you will find  
When you trust in Him  
You will not be denied  
Even in your darkest hour  
He will shine a light of healing power  
To guide you to the path that you need to know  
Just give it all to Him
