(1st Verse)

One night while on life's raging sea it looked as if I
would suffer defeat.
As the blackness of night closed off the light my heart
sank with fear.
My desperate cry rang out with fright; all I could see
was no hope in sight.
With faith all but gone I met the one who came looking
for me.

(Chorus)

He came looking for me, He came looking for me.
He made a way when there was no way that I could see.
When I drifted so far Jesus was near to rescue my soul
and calms all my fears.

Now I'm safe from all harm since I met the one who
came looking for me.

(2nd Verse)

Satan had already picked out my grave, his plan was to
foil and put me away.
I'd drifted so far, would anyone care that I'd soon be
lost.
I knew my destruction was a matter of time but Jesus
appeared and said this one is mine.
Now I'm safe with no harm for he walked through the
storm
When he was looking for me.
