"You Saved Me"

Visit "[You Saved Me](#)" on MotoLyrics.com

You forgave me, took away my guilt and shame
Lord I worship You forever, praise Your name
You're my hiding place, my strength in time of need
Now there's a song in my heart
Lord, because You saved me
Oh, You saved me

Chorus:

I could not kill the feeling I often tried to hide
I searched for healing beyond my will to find
While crying out for peace in my soul
That's when Your hand of mercy took control

You are the way
The light that guides me through
And now I know all I ever need is You
You are my rock, my refuge from the storm
The comfort for the weary and the worn

Life is but a breath and disappears like a shadow
So I will always tell of what You've done for me
No matter what may come, You I will follow
And never fail to tell of how You set me free
