Come on baby(oh oh oh)  
I got a little story(oh oh oh)  
Mmmmm yeah(oh oh oh)  
Tell me are you with me  
Tell me are you with me  
Singing it(oh oh oh)  
Mmmmm yeah(oh oh oh)  
Sing it sing it for me(oh oh oh)  
Mmmmm yeah ohh(oh oh oh)  
Tell me tell me baby (yeah)

All up in the mix on a friday night (friday night)  
Me and my guys looking oh so tight (oh so tight)  
Bounce from the crib to the car  
From the car made our way to the bar  
Girl i wonder where u are  
Always loved you from the far  
Wait a minute there she's along at the back  
I'm really wanna come and get with you tonight,  
Alright alright  
Ooooh girl you look so fine  
And I want you to be mine  
Well, had nothin to lose  
Thought I'd make my move  
Gettin close to you  
Is all I wanna do (oh)  
Her care for man was so clearly  
You'r all up in your eye  
But didn't notice me  
So maybe now's the time to make my move lady  
So I asked her if she'd mind  
Could we share a little time  
Told me that would be just fine

Couldnt believe I had her by my side  
Who'd ever thought she'd end up in my ride  
Straight to the top  
Girl you really make me hot  
And your just four times a lady

Spinning around to the morning light  
Gonna be making sweet love with her all through the

night  
Straight to the top  
Girl you really make me hot  
And your just four times a lady

Now she calls me up on the phone on the every night  
Just to make sure that im not feeling lonely, yeah  
She didn't come around, telling me that she is feeling  
uptight  
Yeah baby  
So I sit back, took it all in for a minute  
Shes the kinda girl you wanna have around whos all up  
in it  
Shes my everything  
Takes good care of me  
And she's all the things that a girl's supposed to be  
Yeah, can't imagine living without you  
I love you, yes i do  
Never thought my dreams would all come true  
When i start to talk to you  
Saw you out with your girlfriends  
Thought she's so damn fine  
And i wish that she could be mine  
But every time i saw her  
She'd always pass me by  
Never could catch her eye  
Oh

Couldnt believe I had her by my side  
Who'd ever thought she'd end up in my ride  
Straight to the top  
Girl you make me hot  
And your just four times a lady

Your four times a lady  
Yes you are  
Yeah  
Your four, your four times a lady yeah  
Your four times a lady  
Oh baby (x2)  
And you said to me inside you feel the same
