Can't Be Messin Around
Craig David
(Born To Do It)

Uh Uh yeah, Craig David, Its another one
Gonna make you dance to this (x2)
This is how we do it one time
Into the year 2,0 straight from 9,9 (come on)

One day minding my own business, girl from back wont
keep her own distance
She was all over me, just wont let it be (oh no)
So i said to her i'v got a girl at home
This is so hard for me but you gotta leave me alone
She said she didnt want to listen to me
Knew exactly what she wanted to be,my baby
I must admit that she was getting to me
Waiting for me, wanting me to hold her oh so tightly

Together, forever, wherever, (huh) whatever
She said she couldnt find nobody better
Wasnt gonna give up on me never, she said

Ooh, you're looking so fly everytime you pass me by
I like the way you move your body
Girl i must admit your looking real fit
Lets chill for a little bit
I know you wanna get with me, girl you know i'm not
free

(chorus)
1,2,3,4,5,6,7,8,9,10, come on let me hit it again
Come on let me sing it again
Wont pretend, cant be messin around with my
girlfriend (x2)

It seems like every day girl you wanna be calling me
And when i step outside you always follow me
You said you were really fellin sisqo's song
About that thong,th,thong thong thong did i wanna see
it?And when you talk like that you know your really

tempting me
But i gotta girl at home who'll do the same for me
And thats the way its gotta be, gotta be, so listen now
lady

Ooh, i like your profile, the way you talk and your smile
But you gotta understand lady, i'm not cheating on my
baby
Ooh you know this aint right , i'm going home to my girl
tonight
And i'm sorry that we couldnt get it on/but the love for
my girls to strong

(chorus)

Girlfriend this love we got be golden/and you know you
got me open (open)
Since the day we started talking
You and i have had this special little something
(something)
When i wake up in the morning (yeah,yeah)
Girl it would be you i'd be calling(thats right)
Since i met you my phone bill be doubling
But girlfriend you know the money aint a thing (aint a
thing)
With who me? the one and only C-R-A-I-G, come on
Now let me deliver this properly (yeah yeah)
So the world can see that i, aint that type of guy
And why should i
Make my girlfriend cry?
Cant deny the girl i met was real fly
But its you that puts me on a natural high
So i just walked on by (ha ha), saying my oh my (yeah)
I aint gon let no other girl start troublin'
Lose someone like you, you must be joking (come on)
(chorus)
