(Verse 1)

Heeey...

It's Saturday night, just got paid
Looking for a fly girl to come my way (hey)
Cuz' I'm feeling like Mr.Brand New
Night on the town, fresh and clean
Step in the place, nobody in the VIP
So I scope out the scene

That's when I saw her, saw her
She came in sippin' a glass of wine
Nobody on her side, see you know that I
Hope no-one saw her, saw her
Cuz' I got plans to make her mine
By the ending of the night
Looked into her eyes and said...

(Chorus)

Pretty lady you came in here all alone
Would I be wrong to say that I wanna take you home
If you're with it, then let me know
I can escort you

Baby you're the brightest star that I've seen here
tonight
And I'm there to do whatever it is that you like
Don't need a taxi, I got ya ride
Let me escort you

(verse 2)

Hey girl,
Give me the sign and I'll be waiting
Tell by ya eyez, Girl you feel the same (same)
But I wanna make sure you're head's right, I'm a
Gentleman so, won't go too far
End of the night, girl i'll be here to cater to you
Only if you wan't me to

So when you parted, parted
You came in sippin' a glass of wine
Nobody by your side, and you're oh so fine

I wanna get this started, started
Cuz' I got plans to make you mine
By the ending of the ending of the night
Looked into her eyes and said...

(chorus)

Pretty lady you came in here all alone (all alone)
Would I be wrong to say that I wanna take you home
(wanna take you home with me)
If you're with it, then let me know (let me know)
I can escort you (escort you)

Baby you're the brightest star that I've seen here
tonight
And I'm there to do whatever it is that you like
Don't need a taxi, I got ya ride
Let me escort you (I can escort you)

(Bridge)

I can't believe it that you came in here all alone
On second thought I think it's better that way
Don't wanna put no pressure on you to leave with me
But now that we found each other we don't need to stay

Being honest after watching the way you move
And you're the badest thing I've seen up in here
Cuz' I don't wanna leave this club with no-one but you
That's why I came over and made myself clear, love

(Chorus)

Pretty lady you came in here all alone
Would I be wrong to say that I wanna take you home
If you're with it, then let me know
I can escort you

Baby you're the brightest star that I've seen here
tonight
And I'm there to do whatever it is that you like
Don't need a taxi, I got ya ride
Let me escort you
