

## Craig David "Good Time"

Visit "[Good Time](#)" on MotoLyrics.com

It is almost six in the morning and I'm having so much fun

When most people's beds will be calling

But I ain't tired so if you are feeling sober

Now is time to change

Take a shot of tequila and we can do the same

But before we go home we call it a day

Let's talk this f---cking song for this pain...

Put your hands in the air

I came to have a good time, hands in the air

I came to have a good time, hands in the air

I came to have a good time, hands in the air

I came to have a good time

Good time good time time time time

Came to have a good time time with you

Came to have a good time time time time

Came to have a good time time with you

Celebrate together yeah

I want this to last forever between me and you...

Before the night is over, we must do what we came to do

So get the hands up in the air like you don't f---cking care...

And there is only one thing clear for me to say...

Let's talk this f---cking song for this pain...

Put your hands in the air

I came to have a good time, hands in the air

I came to have a good time, hands in the air

I came to have a good time, hands in the air

Lyrics courtesy of

I came to have a good time

Good time good time time time time

Came to have a good time time with you

Came to have a good time time time time

Came to have a good time time with you

I got that fire fire fire

Make you burn to the floor

Cause it makes people higher

Make you wanna have some more

I got you moving moving moving from the rhythm...  
And I know you like a sip of my petrol, (my petrol)  
Have you drinking drinking,... getting, getting higher  
I got hands up in the sky we ain't gon' stop...  
We gon' take it to the top  
I got the beat to make you rock  
I got the beat to make you move  
And make you stop

Lets see the hands in the air  
I came to have a good time, hands in the air  
I came to have a good time, hands in the air  
I came to have a good time, hands in the air  
I came to have a good time  
Good time good time time time time  
Came to have a good time time with you  
Came to have a good time time time time  
Came to have a good time time with you
