*[Intro]*

You are everything  
You are everything

All of this time  
That you been waiting  
Seems like now you got what you want (ohh)  
You got me stuck on the realness (realness, realness)  
Give all your love all your realness

*[Verse 1]*

She's that kinda girl  
Pretty 'bout 5'6', small hips, with them cinnamon curls  
Yes a straight bravado girl  
Money for new whips, makin' trips all around the world  
Yes she's the kinda girl, always thinkin' on her feet  
The type of girl that one day you'd like to meet  
Guess I found her, wanna be around her  
Really ain't that hard for me to see (yeah)

*[Chorus]*

The truth is see I got it bad  
But there ain't nothing wrong with that  
Found a girl that makes me wanna go  
Places I ain't never been before  
She's so sick like a dope melody sittin' nicely on top of  
the beat  
'Cos she's a rider not a fighter, kinda girl for me (yeah)

All of this time, that you been waiting  
Seems like now you got what you want  
You got me stuck on the realness (the realness,  
realness) (ohh)  
You got me stuck on the realness

*[Verse 2]*

I can't really believe, it's like I caught a fever, this  
feelin' takin' over me  
Maybe it's L O V E, but for sure yes you're a keeper,  
savin' all your, for me  
She got that ability turn a spark into a flame  
Like a beautiful picture in a frame

She's on fire, just got to admire, the way she be puttin'  
it down on me (yeah)

*[Chorus]*

The truth is see I got it bad

But there ain't nothing wrong with that  
Found a girl that makes me wanna go  
Places I ain't never been before  
She's so sick like a dope melody sittin' nicely on top of  
the beat  
'Cos she's a rider not a fighter, kinda girl for me (yeah)

*[Bridge]*

Past relationships I'd lose  
I guess I never tried to see things through  
That's how many other girls always on my mind  
Stop actin' a fool, and I've got so much to prove  
'Cos now I found the right girl for me

*[Chorus]*

The truth is see I got it bad (I got it bad baby)  
But there ain't nothing wrong with that (ohh)  
Found a girl that makes me wanna go (wanna go)  
Places I ain't never been before (never been before no)  
She's so sick like a dope melody sittin' nicely on top of  
the beat (oh yeah)  
'Cos she's a rider not a fighter, kinda girl for me (ooh  
baby) whoaaa whoa yeah, oh baby

The truth is see I got it bad (I got it bad baby)  
But there ain't nothing wrong with that (yeah)  
Found a girl that make me wanna go(wanna go)  
Places I ain't never been before (never been before no)  
She's so sick like a dope melody sittin' nicely on top of  
the beat (oh yeah)  
'Cos she's a rider not a fighter, kinda girl for me (yeah)  
(oh no)

*[Outro]*

All of this time, that you been waiting  
Seems like now you got what you want  
You got me stuck on the realness (realness, realness)  
You got me stuck on the realness  
Give all your love all your realness
