Don't wanna hurt you with my honesty,
But it seems to be, causing friction between you and
me
When I mention anything 'bout my first love (my first
love)

You always asking questions about me
Way I used to be, way back when I first came on the
scene
Which some how ends leading back to my first love (my
first love)

Why you always, always making, things so,
complicated
When you know, I'm only about you (about you)
This is crazy, I don't understand, when you know
Know that I'm your man, no feelings, it's all left in the
past
You know it's all about you

I will never talk about my first love again
'cos I know there's a chance could hurt you
And I really don't know what I'd do, if I lost you
So I will never talk about my first love again
'cos I know there's a chance could hurt you
After all of the things you've been through, I want you

So many times I tell you I love you, and girl that's the
truth
But you be thinking I be playing with you
And that I am really over my first love (my first love)
I'd give the world to you and so much more
Just to know that you'll really hold me down and ride for
me
That's why I with you and not my first love, oh girl

Why you always, always making, things so,
complicated

When you know, I'm only about you (about you)
This is crazy, I don't understand, when you know
Know that I'm your man, no feelings, it's all left in the

past
You know it's all about you

I will never talk about my first love again
'cos I know there's a chance could hurt you
And I really don't know what I'd do, if I lost you
So I will never talk about my first love again
'cos I know there's a chance could hurt you
After all of the things you've been through, I want you

Girl I gotta tell so you know
She ain't a part of me no more,
You're the only girl I love, so let it go
I don't wanna be with her for sure
And I told you this before,
I'm never walking out the door
Oh girl

You complete me, maybe one day be my wife
So glad to have you in my life
Every day constantly got you on my mind
Wanna be with you until the end of time
Oh my girl, oh baby can't you see

I will never talk about my first love again
'cos I know there's a chance could hurt you
And I really don't know what I'd do, if I lost you
So I will never talk about my first love again
'cos I know there's a chance could hurt you
After all of the things you've been through, I want you
