"My Love Don't Stop"

Visit "[My Love Don't Stop](#)" on MotoLyrics.com

I've been knowin' you, you've been knowin' me
But I ain't took the chance to tell you what I want
Girl, it's been too long and I can't go on
Can't be actin' like I don't care

'Cause I rolled with you, I grew up with you
My momma used to sit you when your moms weren't
home
Always friends with you, never stepped to you
But now it's time that I start makin' love to you

Time passes by for more than a lifetime
I want to be yours, girl
I would give up my life to spend just one night with you
'Cause my love don't stop

I can't lie, you bring out the best in me
I got to be yours, girl
I would give up my life, there's nothin' that I won't do
'Cause my love don't stop

There's a part of me that wants us to be
Just the way we are, so we don't mess things up
But it's killin' me 'cause the rest of me
Wants to feel your body baby, wants to tear it up

I'll do some things to you, no one else can do
'Cause baby, I'm the one to make you feel real good
Bein' friends is cool, [Incomprehensible]
'Cause now it's time that I start makin' love to you

Time passes by for more than a lifetime
I want to be yours, girl
I would give up my life to spend just one night with you
'Cause my love don't stop

I can't lie, you bring out the best in me
I got to be yours, girl
I would give up my life, there's nothin' that I won't do
'Cause my love don't stop

I've been loving you so long, I know it can't be wrong

'Cause there's never been no one but you
And girl, there never will
Love don't stop now

Seeing you with other guys tears me up inside
Girl, I've watched you get hurt too many times
But I can make you all I can do
To show you how I'm gonna love you

Time passes by for more than a lifetime
I want to be yours, girl
I would give up my life to spend just one night with you
'Cause my love don't stop

I can't lie, you bring out the best in me
I got to be yours, girl
I would give up my life, there's nothin' that I won't do
'Cause my love don't stop

My love don't stop
It goes on and on, baby
It just don't stop
Baby, no no no

My love don't stop
C'mon, love don't stop
It just don't stop
Baby, no no no

My love don't stop
It goes on and on, baby
It just don't stop
Baby, no no no

My love don't stop
