Come on baby,
oh girl,
say the word
and I will, oh yeah

Now I've had my mind on this girl
the most beautiful thing I've ever seen in the world
those caramel eyes had me melt every time
and I think I've got a crush on you cause damn your so
fine
I don't just want a little, slap and tickle
I don't expect to find myself caught up in the middle
of a game of hide and seek
seems like every time we meet
I get the feeling you know the words inside, I'm trying
to say

Chorus:

If you feel the same way baby you should let me know
so that we can take our time and just chill for real
darling all you have to do is say the word
and you know that I will.

If i had you for my girlfriend you'd be my queen
and there's no way that no other girl could come
inbetween
of you and me
you can't deny we're wasting time
when you should be chilling with me (Hey)
girl should i just keep this flow of just go away
don't leave me out in the cold baby
theres been, too many mix messages
and I don't know if I should mess with this
But i can't resist
and I don't wanna let these feelings go so..

Chorus:

If you feel the same way baby you should let me know
so that we can take our time and just chill for real
darling all you have to do is say the word
and you know that I will

Break it down
Girl we've played this game for far too long
something so right just can't be wrong
It's been hard to find the words to say
But this feeling is just too strong, so...

Excuse me miss where you from?
I smell the perfume of a beautiful woman
addicted to like pokemon
but please don't get me wrong
I've got a crush on you that's what I'm saying in this
song
you need TLC
take it from me
even thought your an independant lady
career girl with your own money from what I can see
healthy attitude with a warm personality
see you in cinemas in different bars
with your girlfriends eating hagen daaz
driving fast cars
but please don't be fooled by those little men
who be acting like gentlemen
cause I've seen with my own eyes
the situations they've been in
so, Hi! my name is... Why blow ?
I think ill leave that one for those of you who already
know
And if your interested is there somewhere we could go
Access all areas that after my show so let me know,
come onÂ...

Chorus (x3)

If you feel the same way baby you should let me know
so that we can take our time and just chill for real
darling all you have to do is say the word
and you know that I will
