Yo, hit that

Would you like a drink with me?
(If you don't mind, can I talk to you, if it's alright?)
I want your body close to mine
(All night, while we're dancin' in the moonlight)
We could spend the night in ecstasy
(Kissin', touchin', caressin')
You know that you don't have to leave
(Tonight)
Sayin', why didn't I go home with you tonight

In fresh from out of town
Just breezed in so I thought I'd take a look around
And find a party where the vibe is right
I'm talking, maybe meet a honey, take her home
tonight
So shades on, tops off the whip
Taking in the sights as I cruise the ship
As I pull up to a red light
I see this pretty little shorty in my headlight

This girl looked half black and half oriental
Man, this chicks got class and style
I'd like to ask her for her credentials
Name, address, numbers to dial
She plays tough, when deep down she's gentle
It ain't hard to read the signs
This girl bangs the Dre instrumentals
Here's an a cappella of mine

Girl, would you like a drink with me?
(If you don't mind, can I talk to you, if it's alright?)
I want your body close to mine
(All night, while we're dancin' in the moonlight)
We could spend the night in ecstasy
(Kissin', touchin', caressin')
You know that you don't have to leave
(Tonight)
Sayin', why didn't I go home with you tonight

Scene two, all up in the club
Got my game tied up, I had to tear it up
Could be a night that I won't forget
Boy, I'm lookin' for a honey an' I'm confident
I was dancin' but I had to stop
When I clocked this fly girl wearin' a halter top
She had her hair done, nails right
This seniorita had a booty that was so tight

She was a hot girl who looked continental
Damn, her body looked so fine
The way she spoke, I saw her potential
If looks could kill then she'd do time
I don't claim to speak perfect Spanish
But I do know a few lines
This female's slick up than your average
And I gotta make her mine

(Tonight)
Sayin', why didn't I go home with you tonight

Tonight, I'm from a distance admirin'
Girl, you're lookin' so vibrant
And I dig the way you move your body
Let's get out of this party
Maybe we can get naughty
Say bye, bye girlfriends
'Cos just in a minute we'll be gone if we're N'SYNC
(Yo, can we dance?)

Would you like a drink and some lovin'?
But leave your husband at home
Unless he want a bump on a dome
Come along, rub alongside me
Put your phone on silence, just breath
What you're doin' is right, what I'm doin' is wrong
Only time I do right is when I'm doin' a song
So, expect your ex to exit the area

Exterior vex, perplex by the sex
What you're drinkin'?
Drinks on me, find me on drink and I drink on me
You can ride next to me, girl, it's ecstasy
Here's somethin' for your ecstasy

It's messed up, how I slide up your tight with my right
hand
You wanna ride all night then I can
Don't be shy of just one, one night stand, now let's go

Would you like a drink with me?
(If you don't mind, can I talk to you, if it's alright?)
I want your body close to mine
(All night, while we're dancin' in the moonlight)
We could spend the night in ecstasy
