Yeah, smooth  
Check it out

(The style that you're used to)--> Humpty Hump

You hear a lot of different songs  
But a lot of the same style  
You know  
So I thought I'd dabble you with a style that ain't  
And bring out somethin different  
It's not the style that you're used to  
So lend me your ear  
Have a open mind, and I'm sure you'll find  
Entertainment in this rhyme  
So we gon' swing it just like this

(The style that you're used to)

Now this is different  
Not too different, but different from the last  
You'll have a blast as soon as somebody pass  
The mic to me  
MC C-r-a-i-g  
Dash G, ask me  
Whatever you ask me, don't pass me  
A rhyme cause that mistake might be ghastly  
In time I might find a new rapper to kill  
Yeah, that's just how I feel  
Skill - skills portrait for what jams are played  
And how many rappers are out gettin paid  
And who sports the dopest lookin fade  
Nah - that don't make the grade  
Rhymes - rhymes that leave you all just confined  
In your room to exercise your mind  
Is the only brand, only kind  
To me that sounds fine  
So yo, next time you even try to flow  
Find a style of rhymes that go  
Go exactly with the way that you choose to  
Not the style that we're used to

(The style that you're used to)

Performance - performance is enough to know  
Who can pick up the microphone and throw  
Throw a rhyme that makes the crowd scream 'ho'  
Yeah, yeah, yeah, I'm sure you know  
Style - style is what drives the crowd wild  
And have the people in the aisles  
Dancin in a single file - never actin mild  
Labels - labels they don't have a clue  
Of the things a rapper goes through  
They go through a lot, yo, it's true  
Believe me, they do  
They push you and make you believe what they think  
Then blame it on you when you sink  
Then tell the whole staff that you stink  
Well, that's now what I think  
See, if they woulda let you do it just the way that you do  
Your style wouldn't be the same style that we're used to

(The style that you're used to)

Swing it

Brand-new styles  
For the 1990

Let me talk about lyrics

Yo, lyrics - lyrics are the key to success  
Success is to keep your rhymes fresh  
And mind clear of all kinds of mess  
That might lead you to death  
Be careful - careful of what style you choose  
Cause in this rap field you can lose  
And lose real big if you move  
Or make the wrong move  
So soothe - soothe the whole crowd with your groove  
And always have somethin to prove  
And don't let no one fill your shoes  
Cause you'll both look like fools  
Fools - they never really go by the rules  
And don't really have the right tools  
But still they think their records sound cool  
Cause their crews in it too  
And just cause they're winnin they will always try to  
bruise you  
And make you do the same style that we're used to

Yeah  
But me, this song is not the same style that you're used  
to

I know it sounds akward  
But yo, it's just not what you're used to  
Yeah  
I'm outta here  
Peace  
And blessings

(The style that you're used to)
