I've had big dreams come true and I believe in
Angels although I can't see them
They're watching over everything I do

Ain't no easy street around the bend on my road
No pot of gold at the end of my rainbow
But I don't mind 'cause, baby, I got you

The rain keeps the flowers from dyin'
The sun lights the world when it shines
The midnight sky has a blanket
Of stars and the moon and, baby, I got you

I can't imagine one day without you in it
Life alone just wouldn't be worth livin'
Love would be a wish that never came true

Lord knows I got more than I deserve
But I don't question the prayers I've been answered
I did something right 'cause, baby, I got you

The rain keeps the flowers from dyin'
The sun lights the world when it shines
The midnight sky has a blanket
Of stars and the moon and, baby, I got you

The rain keeps the flowers from dyin'
The sun lights the world when it shines
The midnight sky has a blanket
Of stars and the moon and, baby, I got you

Keeps the flowers from dyin'
The sun lights the world when it shines
The midnight sky has a blanket
Of stars and the moon and, baby, I got you, yeah

Baby, I got you
Baby, I got you
