We met when I was stationed at Fort Campbell
Got married in the front yard at your dad's
I played guitar and sang my songs down at the
hatchery
Then one day, we settled down to what we had

We made a picture perfect life together
Got memories in our head, in every room
One day we'll be too old to do what we used to do
But I look forward to lookin' back with you

When we're sittin' on our front porch
In our cracker barrel rockers
And we don't long to dye the gray out of our hair
We'll sit and laugh, and talk about
All the things that we went through
Yeah, I look forward to looking back with you

I can't believe Ally's already driving
And Kyle rides with her to their high school
It won't be long until they both gone off to college
Baby, I look forward to lookin' back with you

When my new truck is my old truck
And I take off these big old tires
And it's our turn to slow down traffic everywhere
We'll spend our winters in a motor home
Parked down in Cancun
Yeah, I look forward to lookin' back with you

Oh, and if our Maker comes and takes me
And leaves you here alone
Don't be sad because I'm not that far away
Once again, hand in hand we'll walk
The far side of the moon
I look forward to lookin' back with you
Oh baby, I look forward to lookin' back with you
