The best we can  
The best we can  
ohhhh

And so they tell me  
To write a song they wanna hear  
Don't make it too dark  
But get to their hearts  
Not everyone's as sad as you are  
Relate to everyone  
Pretend that nothing here is wrong  
Cause they wanna sing  
Singing their heartbreak  
Just another way for them to escape  
Just another way for them

So tell me once  
And tell me twice now  
And you don't need to tell me again  
I'm not a saint but just a friend

So let's raise our glasses boys  
And scream our favorite songs  
The ones that helped us out  
When we were feeling down

So let's raise our glasses boys  
And scream our favorite songs  
Cause we've got another day  
Good times are here to stay  
We're not alone

We're doing the best that we can  
The best that we can  
The best that we can  
Ooohh

So come and dance with me  
And show me what you can do  
Love is when I know that you will come through  
Not everyone is just like you are

So tell me once  
And tell me twice now  
And you don't need to tell me again  
I'm not a saint but just a friend

So let's raise our glasses boys  
And scream our favorite songs  
The ones that helped us out  
When we were feeling down

So let's raise our glasses boys  
And scream our favorite songs  
The ones that helped us out  
When we were feeling down

It takes away the pain  
It takes away the pain

Cause we've got another day  
Good times are here to stay  
We're not alone

We're doing the best that we can

Don't let me down  
This song has been my saviour from the start  
Lost and found  
This song has been my hope,  
My dying star  
My dying star

So let's raise our glasses boys  
And scream our favorite songs  
The ones that helped us out  
When we were feeling down

So let's raise our glasses boys  
And scream our favorite songs  
The ones that helped us out  
When we were feeling down

It takes away the pain  
It takes away the pain

Cause we got another day  
Good times are here to stay  
We're not alone

We're doing the best that we can  
We're doing the best that we can

The best that we can  
The best that we can  
Oohhh
