"I Really Hope"

Visit "[I Really Hope](#)" on MotoLyrics.com

I don't down this road before
Now I'm coming back for more
This is like a deja vu
I was born to be with you

Into the night we went to sleep
(Ooh)
You and I were meant for peace
(Ooh)
Into the night we went to play
(Ooh)
You and I

I really hope you'll always be
So in love with me
I really hope we'll always stay
So attached this way
Yeah
I really hope you'll always be
So in love with me
I really hope we'll always stay
So attached this way
Yea yea yea

So beware of the big fall
We don't have to change at all
And our life will not burn out
It's what freedom's all about

Into the night we went to sleep
(Ooh)
You and I were meant for peace

(Ooh)
Into the night we'll go to play
(Ooh)
You and I

I really hope you'd always be
So in love with me
I really hope we'll always stay
So attached this way

Yea
I really hope you'd always be
So in love with me
I really hope we'll always stay
So attached this way
Yea yea yea

I really hope you'd always be
So in love with me
I really hope we'll always stay
So attached this way
Hea

I really hope you'd always be
So in love with me
I really hope we'll always stay
So attached this way
Yea yea yea

(I really hope that you'll always be here)
(I really hope that you'll always be near)
(Take really note that I'll always be here)
(I really hope that we'll always be near)
