I'm still remembering the day I gave my life away
I'm still remembering the time you said you'd be mine
Yesterday was cold and bare because you were not there
Yesterday was cold my story has been told

I need your affection all the way
The world has changed or I'm changing away
I try to remain, I'm trying not to go insane
I need your affection all the way, the way

Get away get away get away
Get away get away get away

I'm still remembering my life before I became your wife
I'm still remembering the pain and the mind games
Reverse psychology, never tainted me
I didn't sell my soul, I didn't sell my soul

I need your affection all the way
The world has changed or I'm changing away
I try to remain, I'm trying not to go insane
I need your affection all the way, all the way

They say the cream'll always rise to the top
They say that good people are always first to drop
What of Kurt Cobain will his presence still remain?
Remember J.F.K. ever saintly in a way

Where are you now?
Where are you now?
Where are you now?
I say, where are you now?

I need your affection all the way
I need your affection all the way
I need your affection all the way
I need your affection all the way

All the way, all the way, all the way
All the way, all the way, all the way
