I have no problem
Waiting for you
I'll wait forever
That's what I'll do
I'm havin' problem
I'm crazy for you
My brain disfunctions
Without you
Isn't love such a beautiful thing?
Do you know
Isn't love such a wonderful thing?
Do you know
Isn't love so amazing?
And we all go down
And we all go down
We're in it together
In it together, in it together
In it together, in it together, in it together
You like to vex me sometimes
But I wouldn't have it any other way
Watching The Simpsons on the TV
Darling, won't you share the cobertor with me?
With me, with me, with me, with me
With me, with me, with me...
And we all go down
And we all go down
We're in it together
In it together, in it together
We're in it together
In it together, in it together
We're in it together
In it together, in it together
We're in it together
In it together, in it together
Waiting for you
I'm waiting for you...
