Come here, my lover
Somethings on your mind
Listen to no other
They could be unkind

Hold on to the concept
Of love, always darling
Hold on to the concept
Of love, always

Take life between us
Live it like we choose
They'll never see us
I'll wait here you come

Hold on to the concept
Of love, always darling
Hold on to the concept
Of love, always

Night on night on night
Night on night on night
Night on night on night
Night on night on night
