"Waiting In Walthamstow"

I got this thing in my head
When I awake in my bed
Well I was thinking about you when
I wondered if you thought about me
I got a pain in my heart
Whenever we are apart
I got a pain in my head
When I awake in my bed
I was waiting there for you
You were waiting there for me
I was waiting there for you
You were waiting there for me
I took the underground
I went eastbound
I went to Walthamstow
Where you were waiting to see me there
I really really want you to know
Iâ€™ll never forget your kindness
Iâ€™ll never forget your grace
Iâ€™ll never forget your honor
You make the world a beautiful place
I was waiting there for you
You were waiting there for me
I was waiting there for you
You were waiting there for me
Walthamstow
In Walthamstow
I was waiting there for you
You were waiting there for me
