### "Are You Gone?"

are you gone  
did you just fly away  
the sun is gone away  
and I can't seem to find my way  
are you gone  
just like in dreams you said  
and dreams should never die  
and I just want to hide away  
are you gone  
did you just fly away  
the sun is gone away  
and I can't seem to find my way  
are you gone  
just like in dreams you said  
and dreams should never die  
and I just want to hide away
