Hang your head low;
Make me believe
That everything you need
Is right in front of me.
I'll wave goodbye,
As you screamed out one last time
And drove right out of my life.
I will draw a map
Straight to your ass,
So you can finally get
Get your head back.
Wake up 5AM
True romance is on repeat,
Wishing you were here with me.
I feel it on your lips,
With each and every kiss.
You've got this burning in your heart
Like it had never been before.
Don't let that tear us apart.
You've got
To say this
Before she leaves now
Don't let her leave now.
And you've got
To save this
Before her loneliness
Comes to pass.
Bury me down
That'll never work
'Cause I always find;
Find a way out.
Follow me now
Like a moth to flame;
I will always find my way.
I feel it on your lips,
With each and every kiss.
You've got this burning in your heart
Like it had never been before.
Don't let that tear us apart.
You've got
To say this

Before she leaves now
Don't let her leave now.
And you've got
To save this
Before her loneliness
Comes to pass.
Ready or not, I'm coming to get you;
I hope that you will be there.
Ready or not, I'm coming to get you;
I hope that you will be there.
Something that I'm starting to show and that you'll
never know.
I'm thinking that I'm starting to grow up but you'll never
know.
I'm not so bad,
I'm not so bad. [4x]
You've got
To say this
Before she leaves now
Don't let her leave now.
And you've got
To save this
Before her loneliness
Comes to pass.
You've got
To say this
Before she leaves now
Don't let her leave now.
And you've got
To save this
Before her loneliness
Comes to pass.
