I still miss you,
And everything we've been through,
From the first kiss, to all the times, you've got this.
Does it still haunt you, To think of what I meant to you.
Do you wish now that you could take this back.
I only said I'd be there for you,
Always,
I only said that I'd be there.
With you

I hope that you remember me,
Young and in love at seventeen,
I hope that this is what you want,
I hope that this is what I want.
You talk, talk, talk like nothings wrong,
And all my feelings have gone numb,
I can't believe that I still miss you now.

Almost three years,
And the feeling is still there.
You keep finding me,
With these open arms
And all your tattoos
Remind me of the time
When we said goodbye,
This isn't goodbye.
I only said I'd be there for you,
Always,
I only said that I'd be there.
With you

I hope that you remember me,
Young and in love at seventeen,
I hope that this is what you want,
I hope that this is what I want.
You talk, talk, talk like nothings wrong,
And all my feelings have gone numb,
I can't believe that I still miss you now.

(Yeah, I)
I'm looking for a way out of this

You Took the words right from my lips
(Still am)
I'm looking for a way out of this
So I can throw caution to the wind
(Dreaming)
I'm looking for a way out of this
You Took the words right from my lips
(About You)
I'm looking for a way out of this
(Tonight)

As I climb up to your bed,
My name in stars above your head,
This is the worst feeling yet,
I guess that this is what I get,
For all the nights and fights for love,
I gave it all, all my heart,
And every word that you said,
I know that I won't forget you
I know that I won't forget you, yeah yeah

I hope that you remember me,
Young and in love at seventeen,
I hope that this is what you want,
I hope that this is what I want.
You talk, talk, talk but nothings wrong,
And all my feelings have gone numb,
I can't believe it, I still miss you now.

I always said I'd be there for you...
