"Self-Defeating Mind"

See the world in ample sky
Accidental life were we designed?
Listen here, but don't think twice
Human pride will find a lie to shine
Won't go away
Question of pain
Keep it out you say
Point reference undefined
Don't know why you're wrong
Don't know why you're right
Listen here, but don't think twice

Absolutes would be nice to live by
Won't go away
Question of pain
Keep out you say
Meaning drawn from all your let-downs
Existence based on human grounds problems stem
from the mirror
Come on in says the self defeating mind
Self defeating mind
