I don't need no fields of whiskey
Don't indulge in beer or wine
But baby, you turn me on
And blow my ever-lovin' mind
Now, let's do our thing together
Go out and have a balling time
You know I dig you doing your thing
And I'll turn you on when I do mine

I'm not a blue-blood or a scholar
Just a hard-workin' boy
And after five long days
My body needs a little joy
Now, let's do our thing together
Go out and have a balling time
You know I dig you doing your thing
And I'll turn you on when I do mine

I am solid, sane and sober
And I'm over twenty-one
What I see is what I want
And what I want is you right on
Now, let's do our thing together
Go out and have a balling time
You know I dig you doing your thing
And I'll turn you on when I do mine

I'm in the mood for a little rockin'
You got to shake it up and shout
You been a little uptight lately
I'm goin' let it all hang out
Let's do our thing together
Go out and have a balling time
You know I dig you doing your thing
