### "You And My Country"

Visit "[You And My Country](#)" on [MotoLyrics.com](#)

I love my country, it's aim and intent  
I believe in the system as it is in print  
But I'm in love with you  
And determined to help amend it for you

It ain't my hearet to beg, rob or steal  
Although sometimes that's just how I feel  
'Cause I do want you  
To enjoy the few things that you love too

Working so hard for so little pay  
And we just can live from day to day  
This can't go on, it takes too long  
Those days are gone

I know I'm nobody, I lost out in school  
But I feel something wrong unless I'm a fool  
I'm going to keep prying, at least I'll be trying  
'Cause somebody's lying
