Must be something in this life  
Everybody in the world is criminal  
This rat race of a place  
Where we can't live

I don't think  
They can blame us, girl  
They got the wrong idea  
So let's take advantage of  
The freedom they gave us  
Pack our bags and  
Get away from here

[CHORUS]  
'Cause you and me, baby  
We have seen this world  
Let's take the next train, child  
Stone cold sober  
Stone cold sober

The stone cold truth  
Is they're all the same  
Waking up one day  
You find that precious thing gone

I don't think that  
We can ever agree  
That there's more to this life  
Than being free

[Repeat CHORUS 2x]

Stone cold sober  
Stone cold sober

Stone cold sober  
Stone cold sober
