Come on, baby, let's go downtown
Let's go, let's go, let's go downtown
Come on, baby, let me turn you around
Now turn you, turn you, turn you around
Come on, baby, let's go downtown
Let's go, let's go, let's go downtown

Walk on, talk on, baby, tell no lies
Don't you be caught with a tear in your eye
Sure enough, they'll be sellin' you stuff
For when the moon begins to rise
Pretty bad when you're dealin' with the man
And the light shines in your eyes

Come on, baby, let's go downtown
Let's go, let's go, let's go downtown
Come on, baby, let me turn you around
Now turn you, turn you, turn you around
Come on, baby, let's go downtown
Let's go, let's go, let's go downtown

Snake eyes, French fries and I got lots of gas
Full moon and a jumpin' tune, now you don't have to
ask
Sure enough, they'll be sellin' you stuff
When the moon begins to rise
Pretty bad when you're dealin' with the man
And the light shines in your eyes

Come on, baby, let's go downtown
Let's go, let's go, let's go downtown
Come on, baby, let me turn you around
Now turn you, turn you, turn you around
Come on, baby, let's go downtown
Let's go, let's go, let's go downtown

Come on, baby, let's go downtown
Let's go, let's go, let's go downtown
Come on, baby, let me turn you around
Now turn you, turn you, turn you around
