It happened down in the valley where the green grass grows..

I know this ain't the ocean, she likes to take of her clothes.

Her first name is Deja, her stage name was Rita!

She worked the nightshift at the pussycat theatre!

I brought her round the hood, my homies asked me where cha meet her

Said a movie at the hood, picked her up cause I could should of known her fine ass was up to no good.

While I was blinded by the fad..

Lil Deja was stacked, to be exact, she got molled back in a Cadillac.

Only 17, but she looked around 20.

Try to tell me I'm the one, I said I'm one of the many

I said Deja vu what are you trying to do?

You think spreading your legs will make your dreams come true!

Everybody loves you

at least for a day or two

I think I use to fuck you

this is just like Deja vu

and if you give me your number, honey

I'll put you with the other bunny's

it's true

miss Deja vu! x3

Another good gurl gone bad

another one bites the dust

She's on dust and needs rehab

the pick of the litter till the whole city hit her

the cream of the crop until she couldn't stop

The kinda gurl you like a lot till you get to know her

always talking about the people she knows

and how the world owes her..

This lady is just a poser, the perfect example of over exposure

Do you like what you see, well then you need to look closer

Girl I know where ya've been and you'll never be a my girl again

Could of have it all but you took a short cut
could of had the world but you end up a slut
It hurts when I have to think of all the people you have
fucked
you could of slowed your own, but no, you had to push
your luck
running your luck got ya looking like a duck
Young, dumb and immature..ain't no future when
you're fucking
Tried to bet it all, fucked them all
But you ended up with nothing
Using sex as a weapon to get what she wants
Like a smith and wesson and she's the flavour of the
month
Well it's time to, baby bump and grind like a sex crime

Fuck that shit, bring in the chorus
Everybody loves you
at least for a day or two
I think I use to fuck you
this is just like Deja vu
and if you give me your number, honey
I'll put you with the other bunny's
it's true
miss Deja who? x3

Everybody loves you
at least for a day or two
I think I use to fuck you
this is just like Deja vu
and if you give your number honey
I'll put you with the other bunny's
it's true
miss Deja vu
