

## Crazy Town "Them Days"

Visit "[Them Days](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Tell me how you like us now  
I remember the days we used to stop and watch and  
drop the drops  
But now we got the block unlocked with lots of props  
No longer do we shock the rocks and cop the block(?)  
So how ya like us now?

We used to be broke, now we coppin shifts  
We used to make demos, but now we droppin' hits  
Had ---- on the phone, but now we got ---  
If you wanna catch me, you better hit me on the head  
I used to be the dope man, supplying the coke, man  
But now I slang CDs and I'm still the dope man  
--- comin' up, we used to have people runnin' up  
Fuck a bodyguard, I'll break your face if you're dumb  
enough

-----  
You've heard of us, we ain't no murderous, but there's  
a turn of us  
We used to chase girls, and now they're wantin' us  
Used to lace girls, but now they're turnin' us  
Spinin' huns on us, droppin' funds on us  
We used to chase girls, but they're chasin' us  
We used to live the ouih life, and now we live the good  
life  
Don't run the label, but we runnin' it like Shug Knight

I remember the days we used to stop and watch and  
drop the drops  
But now we got the block unlocked with lots of props  
No longer do we shock the rocks and cop the block(?)  
So how ya like us now?  
I remember the days we used to stop and watch and  
drop the drops  
But now we got the block unlocked with lots of props  
No longer do we shock the rocks and cop the block(?)  
So how ya like us now?

Tell me how you like us now

We came up, by doin' the same stuff  
When we was rappin, you was hatin', now you wanna

change up  
Cause you see we platinum chain up  
You had the same chances we had and rose the same  
bus  
Now you wanna blame us, cuz you need luck  
We used to have the same damn problem, now we're  
famous  
I used to have a bus pass, now I push a cadillac  
We used to have no cheese, now we have too much  
cash  
We used to get no play, now we in rotation  
I used to rock my CDs on a sony playstation  
I used to be shy, now I'm outgoin'  
Used to be a nice guy, but now I'm out hoein'  
I used to like people, now I got an ego  
When I was comin' up, society didn't treat me equal  
The ladies used to play us, and treat us like some  
suckas  
But now that we got money, we're some sexy  
mothafuckas  
They wanted to be my lover, but said I was too nasty  
Now they wanna flash me, and sexually harass me  
I used to rock the timex, but now I don't recommend  
them  
Cause now I got the platinum, only with the diamonds  
in em  
Come here, check this shit out  
BLING BLING

I remember the days we used to stop and watch and  
drop the drops  
But now we got the block unlocked with lots of props  
No longer do we shock the rocks and cop the block(?)  
So how ya like us now?  
I remember the days we used to stop and watch and  
drop the drops  
But now we got the block unlocked with lots of props  
No longer do we shock the rocks and cop the block(?)  
So how ya like us now?  
I remember the days (I remember them days)  
I remember the days (I remember them days)  
I remember the days (I remember them days)  
I remember the days, the days, the days  
I remember them days. Them days. Bitch.
