Gonna build myself a castle  
High up in the clouds.  
There'll be skies outside my window;  
Lose these streets and crowds.  
Dance the night away.  
Will find myself an ocean,  
Sail into the blue,  
Live with golden swordfish,  
Forget the time of you.  
Dance the night away.  
Dance myself to nothing.  
Vanish from this place.  
Gonna turn myself to shadow  
So I can't see your face.  
Dance the night away
