Dreaming about my love
You bring me joy and hours of happiness
More or less
I dream my life away

Waiting for you to come
Changing my life for you to emptiness
Meaningless
Minutes just drift by

I don't care if I get nowhere
I can just dream and you'll be there
What else is there to do?

Dreaming about my life
Where are you now
And when will you come to me?
I dream my life away

I don't care if I get nowhere
I can just dream and you'll be there
What else is there to do?

Dreaming about my love
You bring me joy and hours of happiness
More or less
I dream my life away

Dreaming
