"Can't Get Enough"

Visit "[Can't Get Enough](#)" on MotoLyrics.com

Got good at goin' through motions hidin' in my routine
Packed up all my emotions ooh sent 'em downstream
Made believe I was happy put that smile on my face
That kind of life leaves you empty ooh what a lonely
place
That was when love couldn't have been further from my
mind
But now I find since you opened my eyes it's a beautiful
world
Can't get enough no I can't get enough of you girl

Sure wish that I'd met you sooner sure could have
saved me some tears
Those days are over now ooh that you're here
That was when love...

I swear the sky's a different blue I thank God for every
day I get with you
That was when love...
