

Berry John "I Give My Heart"

Visit "[I Give My Heart](#)" on MotoLyrics.com

Before you call my name
I will be there by your side
When your standing at the rivers edge
I will be the bridge you find
If you said, "Meet me now beyond the stars"
I'd pack my bags and go that far
With the street that only love commands
I give my heart

Keep it with you if you have to go
It will see you safely home
Wrap it 'round you like your favorite coat
When your called out in a storm
If you loose faith in who you are
With the street that only love commands
I give my heart

When all that's left of me
All the words in this song
I know this love will carry on
With the street that only love commands
I give my heart
