"I Promise You"

After all that we've been through

I can't believe it's me alone here with you

Every touch tells me it's real

And the words don't come close or say how I feel
(I promise you) I promise you I'll never give up on us

(I promise you) I promise you always the best of my
love

(I promise you) I'll be the one you can turn to because

If your wishes fall through I'll still promise you my love
With everything your heart can hold
And all the whispered words you've never been told

This is where we belong in love from now on

(I promise you) I promise you...
It took a little time to see what should have been
perfectly clear

Now I can't believe I spent one minute without you here

(I promise you) I promise you...

(I promise you) I promise you...
