"You Make Me Believe"

Visit "[You Make Me Believe](#)" on MotoLyrics.com

Coffee shop, taxi cabs
Newsstand and the subway station
Cigarettes, elevator stalls between the floors
And I'm listening to the cell phones
Beep in time, tugging at the corners of my mind

CNN karaoke, breakdown in communication, play to win
Everybody's got their lawyer on the line
Jamming Russian radar double time
Tugging at the comers of my mind

But when I'm with you I leave the world behind
And I find myself when I look in your eyes
You're all that I need when I'm losing faith
You make me believe you make me believe

Four o'clock feeling like I've been awake ten thousand
years
Traffic stopped all my imagination used
And I'm drifting on a daydream
That I find painted in the corners of my mind
But when I'm with you

You lift me up when I think I'm going down
For the count and I feel I've had enough you make me
believe
But when I'm with you
You make me believe you make me believe
