There's glory in subversion there's glory in destruction
fossils are an invention to serve the technophile fossils
are an invention to preserve the artificial lie humanity is
being coded existence is uploaded only simulation
exists to construct the fossil evidence to preserve the
artificial lie to serve the technophile they are modeling
the fossil evidence we are the tools of our tools
deconstruct the technophile there's glory in subversion
there's glory in destruction we are deconstructing the
technophile.
