ounce for ounce  
blood for blood  
you get a taste  
and it's never enough

pound for pound  
eye for an eye  
you get the thirst  
and it never runs dry

peice by peice  
bite by bite  
relish the flavor  
and swallow your plight

inch by inch  
slice by slice  
dress your guest  
and season with vice

plese let me clarify before we begin  
am i getting under your skin  
your disposition seems a trifle bland  
it's time you learned how to serve man

pinch by pinch  
dash by dash  
braise the passe  
and devour the past

day by day  
night by night  
prepare the course  
and savor the spice

please let me clarify before we begin  
am i getting under your skin  
your disposition seems a trifle bland  
it's time you learned how to serve man
