The cradle of civilization sparks my fascination
Truth ignites a generation
To change what's been programmed
Inside the mind

Don't you turn a blind eye
Change what's been programmed inside
Don't you turn a blind eye

Listen to me when I tell you
Feel the passion in my breath
Stay on top if they let you
'Cause the change is permanent, change is permanent

Rudiments of interpersonal communication
Truth will uproot and bring [Incomprehensible] to light

Don't you turn a blind eye
Change what's been programmed inside
Staying in silence is a crime

Listen to me when I tell you
Feel the passion in my breath
Stay on top if they let you
'Cause the change is permanent, the change is permanent

Change starts in your mind, leave the past behind
Forget everything you know, make a change, let go
Change starts in your mind, leave the past behind
Forget everything you know, make a change, let go

Change starts in your mind, leave the past behind
Forget everything you know, make a change, let go
Let go, let go, let go, let go

Listen to me when I tell you
Feel the passion in my breath
Stay on top, if they let you
'Cause the change is permanent

Listen to me when I tell you

Feel the passion in my breath
Stay on top, if they let you
'Cause the change is permanent, change is permanent

Leave the past behind
Leave the past behind
Make a change, let go
Let go, let go, let go, let go, let go
