The modern grim reaper comes falling from the sky  
[x2]  
A silver bitch comes calling, fly my innocent butterflies  
Her eyes were bright, a beautiful girl is wearing her  
final smile  
Raped by her courage, deprived of her fame [x2]  
Nothing will be left in her name  
The modern grim reaper falls from the sky  
And fills the sky with fire, it fills the sky with...  
Air, screaming under terror with ashes in her lungs  
A banshee wind as this beautiful girl is falling  
A silver bitch keeps calling, screaming her lungs out  
Her eyes were bright, a beautiful girl is wearing her  
final...  
As she dissolves with the wind [x2]  
The modern grim reaper falls from the sky  
And fills the sky with fire, air screaming under terror  
With ashes in her lungs  
A banshee wind as this beautiful girl is falling  
As she dissolves with the wind [x2]  
With the wind
