Another day, another goal
Your life is out of your control
Tomorrow's just another day
Another chance to throw away
Used emotions, failed solutions
Get the daily thought pollutions
Tomorrow's just another day
To watch your life go astray

I'm amused and I'm confused
My life is out of my control
I just try to stand aside
And let things take their toll
And when things start getting better
Everything just falls apart
Every situation is temporary
But I get caught up in playing my part

You learned a lesson, not to rely on anyone
Now you don't even rely on yourself
You learned a lesson, not to trust anyone
Now you don't even trust yourself
You learned a lesson, not to love anyone
Now you don't even love yourself

In all the experiences that you've had
You think that all you've learned is bad
You've got to learn to learn good from the bad
Learn to learn good from the bad

And you're tired of being fucked over
So you pass off any love as lust
And you want to be hopeless
But you have no one that you can trust
Well you think that you're so different
But you ain't different from anyone else
You're sick of every goal failing
So you live your life without a purpose
