The night, I saw your face.
Was the night, I began to live
My heart, Were full of doubt.
But now, I'm strong enough
To keep, with living my life.
With you, I feel so alive.
You changed, My life in one night

When you look into my eyes.
It feels so hard to say goodbye
You are my heart, you are my soul
You're the angel of my life.

When you cry when you're sad.
Or whenever you feel bad.
I'll be here as you support.
I will always be there for you.

That night, I had a dream
You stood, on the top of a hill.
The snow, was falling down.
I held, you tight in my arms.
I said, that is love you so much.
You changed my life in one night.

When you look into my eyes.
It feels so hard to say goodbye
You are my heart, you are my soul
You're the angel of my life.

When you cry when you're sad.
Or whenever you feel bad.
I'll be here as you support.
I will always be there for you.
